

Migration Project Manager

Function type: Freelance - Vast **Location:** Eigenbraakel
Duration: 12 maanden + **Reference:** 201807291

Description:

Our customer is looking for a Project Manager to manage an Infra project related to a migration to Windows 10

Key Responsibilities:

- Address all relevant IT risks (IT continuity, IT security, malicious codes, external facing systems, ...)
- Align with the clients architecture as closely as possible, so that future integration between different departements will not be constrained

Requirements:

Mandatory:

- At least 8 years of experience in management of infrastructure projects
- Good communication skills in English
- Ability to assess, organize, prioritize, estimate, execute and deliver results
- Influencing skills
- Proven ability to develop strategies which deliver business benefit, are measureable and actionable
- Demonstrable experience of successfully managing within the multi sourcing environment
- Aligns behaviours and decisions with the needs and goals of the global organization
- Demonstrable track record in communication, personal effectiveness, and influencing skills.
- Computer science degree / engineering or equivalent

Nice-to-have:

- Experience in Windows 10 migration projects
- Good communication skills in French
