

Agile Coach

Function type: Freelance - Vast **Location:** Brussels
Duration: long term **Reference:** 202108580

Description:

For our customer in the telecom sector, we are looking for a senior Agile Coach.

This role is defined on the level of delivery for the Data Foundations program, as well as all other business initiatives requiring analytical use of data on the public cloud.

In a highly complex and fast moving data landscape the role oversees the deliveries, manages the chosen vendors/partners for this delivery, ensures demand and capacity management.

The person connects different internal and external stakeholders as a representative of the delivery teams. He/she keeps the overview of all ongoing initiatives and dependencies, organizes the team to deliver and is involved in all new intake.

(S)he will work closely together with program and portfolio lead, the change managers and executive managers involved in data transformation.

Planning and delivery

Manage resource and capacity plans

Commit and follow-up delivery milestones for the data cloud team

Input for quarterly business review process in terms of critical resources

Intake & Prioritisation

First contact point for business projects that require EDH deliveries

Ambassador of the whole DAT department and Data Foundations program

Manage prioritisation processes within the data cloud team

Manage Requirements capturing of new demand

Ensure new demand is embedded in the roadmaps (supply planning)

Escalation point for Project Managers in case of priority conflicts

Budget follow up

Perform budget checks for new demand

Prepare capex releases

Prepare budget forecast based on prioritization managed by PGM

Manage calculation of business cases

Manage budgetary aspects of sourcing plans

Supervise PO creation

Vendor management

Drive the selection of partners for every new request

Setup of workorder for the assignments

Setup of mixed vendor/Customers' teams

Actively steer different partners in data delivery teams

Setup and manage the acceptance criteria in fixed price engagements

Review vendor performance

Contact point to sourcing division for data cloud contracts

Management and Governance

Member of the core team

Member of the project board Data Foundations

Member of Data Transformation Steerco

Member of Portfolio Owner Committee

Review way of working and cost structure and propose optimizations
